Editor's Comment...

Welcome to the latest issue of insider, the official newsletter for timeware[®] partners around the world.

Welcome to the revamped edition of the 'insider' newsletter! This issue features a case study on Salisbury Poultry Limited, showcasing how timeware[®] has become their trusted partner for time and attendance. Also, join us for a chat with members of our implementation team as we ask them about the complexities of the Salisbury poultry installation.

timeware® feature in focus- Reporting...

Clear and concise data produced quickly, on demand.

timeware® Professional's reporting feature offers unparalleled flexibility. Users can generate various reports - from attendance summaries to detailed timesheets - tailored to their needs. These reports can be run instantly or scheduled for preset times, ensuring managers always have up-to-date information at their fingertips.

Please note that timeware® reports are far more flexible than those offered in standard attendance features within most security or access control systems.

The image displays two overlapping Excel spreadsheets. The top spreadsheet, titled 'Bradford Factor Listing With Detail', shows a list of employees with columns for Company, Employee ID, First Name, Last Name, Badge, Known As, Start Date, Payroll, and Absence Data. The absence data includes Absence From, Absence To, Reason, Days, and Score. The bottom spreadsheet, titled 'Weekly Clock Card', shows a detailed view of employee attendance for the week of Monday, 2nd Dec 2024, to Sunday, 8th Dec 2024. It includes columns for dates, time slots, and period totals, with a summary row at the bottom of each card.
